

SC26B

USB conference camera

- **Outstanding picture quality and clarity - 4K Ultra HD video at 30fps**
- **Ultra-wide angle - 120-degree field of view**
- **Advanced AI technologies - Image recognition focuses on the person speaking**
- **Dual channel microphone: 0-4 metres**

The SC26B webcam delivers 4K Ultra HD video at 30fps with a layer optical glass lens to achieve outstanding picture quality and clarity. 120-degree field of view ultra wide-angle makes nothing missed in the meeting.

The pioneering 2D and 3D DNR technology in SC26B delivers incredible image quality, and ensures crisp and clear visuals for videos and photos. From low light to bright backlit, high dynamic range (HDR) technology automatically adjusts so you always look your best.

Empowered with advanced AI technologies including face detection, the camera automatically adjusts to the best framing solutions according to the number of visible participants and position in the frame.

No need to install plugins, simply connect to the Type-C port to start your conference in seconds thanks to a simple plug-and-play design.
